INTERNATIONAL ATOMIC ENERGY AGENCY

THE DIRECTOR GENERAL

1 June 2001

Dear Mr. President,

In paragraph 8 of resolution 1284 (1999), the Security Council requested that revision and updating of the list of items and technology to which the export/import mechanism, approved by the Council in resolution 1051 (1996), applies be resumed.

As indicated in paragraph 9 of resolution 1051 (1996), the annexes to the plans for ongoing monitoring and verification approved under resolution 715 (1991) identify the items and technologies to be notified under the export/import mechanism. With respect to nuclear matters, that document is Annex 3 to the Agency's Ongoing Monitoring and Verification (OMV) Plan, as approved in resolution 715 (1991), and subsequently revised and re-issued in S/1995/215.

As provided for in paragraph 9 of resolution 1051 (1996), the lists of items and technology to which the export/import mechanism applies may be amended in accordance with the ongoing monitoring and verification plans. Paragraph 41 of the Agency's OMV Plan (S/22871/Rev. 1/Corr. 1) reads as follows:

The plan may only be revised by the Security Council. The IAEA may, however, after informing the Security Council, update and revise the Annexes in light of information and experience gained in the course of the implementation of resolutions 687 and 707 and of the plan. The IAEA shall inform Iraq of any such change.

Paragraph 19 of resolution 1330 (2000) requested that the revision of the list of items and technology be forwarded to the Council "by the end of this period", "this period being taken to mean that described in paragraph 1 of the same resolution as "180 days beginning at 00.01 hours, Eastern Standard Time, on 6 December 2000", i.e., by 4 June 2001.

H.E. Mr. Anwarul Karim Chowdhury
President of the Security Council
United Nations
New York, NY 10017

Accordingly, as provided for in paragraph 41 of the Agency's OMV Plan, paragraph 9 of resolution 1051 (1996), paragraph 8 of resolution 1284 (1999) and paragraph 19 of resolution 1330 (2000), the IAEA wishes to inform the Security Council that Annex 3 to the IAEA's OMV Plan, which reflects the list of nuclear and nuclear-related items and technology to which the export/import mechanism applies, will be amended as reflected in the attachment to the present letter and that the Iraqi authorities will be so informed.

I shall be grateful if you would bring this matter to the attention of the members of the Security Council.

Yours sincerely,
